3 Scope of the Service and Supplier’s undertakings

3.1 The Supplier undertakes to deliver the Service as described in the specification and this Agreement subject to the terms and conditions.

3.2 The Supplier shall deliver the Implementation Project as described in the Statement of Work and in Section 6 below.

3.3 All Service shall be performed with due care and in a professional workmanlike manner.

4 Customer’s Responsibilities

4.1 The Customer agrees that the Service is to be used for lawful purposes only and in accordance with all applicable legislation and all Documentation, and the Customer undertakes to indemnify the Supplier for any and all claims from a third party aimed at the Supplier arising from the Customer’s use of the Service in breach of this Agreement.

4.2 For the processing of Personal Data, the Parties have entered into a Data Processing Agreement. The Customer is responsible, as Data Controller, for the lawful processing of Personal Data that takes place by means of the Customer’s use of the Service as described in the Data Processing Agreement. Customer is further responsible to ensure that all Personal Data has been obtained in a lawful manner and that it has all necessary consent, permits and approvals (as applicable) for the processing. Customer may not provide sensitive (Special Categories of Personal Data under article 9 GDPR) into the Service unless specifically agreed between the Parties in writing and subject to agreed specific instructions.

4.3 In the event of a breach of this section 4, the Supplier is entitled and free to choose, effective immediately, whether to restrict access to the Service or give notice to terminate the Agreement and receive compensation for any damages. The Supplier reserves the right to charge the Customer any expense or cost for measures taken by the Supplier resulting from misuse by the Customer. In the event of a breach of this clause, the Supplier reserves the right to retain information (however not personal data) stored by the Supplier, awaiting the Customer’s performance, as surety for its claim.

5 Prices and terms of payment

5.1 Applicable prices and rates for the Service are specified in Appendix A – Prices and Charges.

5.2 External Services: In order to be able to offer the Customer high quality in every aspect, the Supplier cooperates with leading external service providers. Against this background, the Parties agree that in the event the Supplier’s service providers adjust the prices they charge to the Supplier, the Supplier is entitled to implement a corresponding price adjustment vis-à-vis the Customer for External Services. The Supplier undertakes to notify the Customer as soon as possible but at least one (1) month before the implementation of such a price

adjustment. Supplier shall, upon request by the Customer, present documentation from the external service provider demonstrating the price adjustment.

5.3 Regular License: The Parties are aware that the Supplier procures capacity of contacts per quarter. The Regular License fee is based on a fixed fee per product component and a variable fee depending on the volume of contacts. The Regular License fee will be invoiced quarterly in advance, as of the 1st in the third month in each quarter (the "Invoicing quarter") and will include (a) the fixed fee for the next following quarter, and (b) the variable fee for an estimated volume of contacts, based on the Customer's total number of contacts as per the 25th of the second month of the Invoicing quarter, (the "Invoiced quarter"). In the quarter following the Invoiced quarter, a reconciliation between the invoiced volume of estimated contacts, and the actual (average) volume of contacts in the Invoiced quarter, will be made. If the Customer's actual (average) volume of contacts for the Invoiced quarter exceeds the estimated volume invoiced, the variable element of the Regular License fee will be adjusted in accordance with the actual volume of contacts, and the difference be invoiced separately. Such invoice will be issued on the first month of the quarter following the Invoiced quarter. No credit will be made in case the actual (average) volume of contacts is below the invoiced estimated volume since the Supplier procures capacity of contacts per quarter in advance.

As an example, the Regular License fee for April through June will be invoiced the first of March and the variable fee of the invoice amount will be based on the total number of contacts as per February 25th. The Regular License fee will then be adjusted in July to reflect the actual average number of contacts for April through June.

5.4 External Services: The Customer can use Voyado Engage to communicate with its customer by text message. If Customer sends longer messages, these will be divided into 160 characters per message and charged as separate text messages. Text messages are pre-paid, in accordance with the price list specified in Appendix A – Prices and Charges. If a price adjustment is made in accordance with clause 5.2 above, the amount of available text messages purchased before the change will be adjusted according to the new price(s). All other volume-based services and External Services pursuant are invoiced in arrears at the end of each month. All prices will be converted to SEK (Swedish krona) if applicable, using the equivalent date for the exchange rate as for the invoice date. The source for the exchange rate is Sweden's central bank; Riksbanken. Volume-based services in which a certain maximum level is agreed for a certain price (e.g. number of addresses in a database, number of user etc.) are automatically updated to the next price level when this limit is exceeded.

5.5 All prices are specified exclusive of value-added tax, customs, duties and other similar taxes and the Customer is responsible for all such. Except for text messages which shall be pre-paid with instant payment, payment falls due no later than thirty (30) days after the invoice's date of issue. In the event of overdue payment, default interest will be charged pursuant to the Swedish Interest Act (1975:635). Furthermore, the Parties agree that the Supplier is entitled to adjust its prices annually on the 1st of January, pursuant to an index of five percent (5%).

5.6 In the event of non-payment, where such late payment is not subject to a good faith dispute, the Supplier is entitled and free to choose whether to block access to the Service until payment in full has been received or to give notice to terminate the Agreement. Such notice of termination requires the Supplier to have given the Customer a thirty (30) day deadline for rectification. Supplier is entitled to set-off any claims the Customer might have against Supplier for any outstanding fees.

6 Implementation Project

6.1 The Implementation Project is described in the Statement of Work which shall be detailed and agreed between the Parties.

6.2 When performing the Implementation Project, Supplier shall follow reasonable instructions regarding IT-security, guidelines and code of conducts if notified by Customer well in advance prior to the commencement of the Implementation Project and if such does not cause any unreasonable inconvenience or additional costs for Supplier. Such vendors shall be required to enter into a confidentiality agreement if required by Supplier.

6.4 The Supplier is only responsible for the undertakings and circumstances specified and detailed in this Agreement. In addition to what is stated in the Statement of Work, the Customer is responsible for the following undertakings/circumstances:

Deviations which are insignificant for the intended use of the Service shall not affect the determination of acceptance.

7.3 If following the Acceptance Procedure, the Acceptance Criteria should not be fulfilled, Supplier shall remedy any deviations and the Acceptance Procedure shall be repeated until it fulfils the Acceptance Criteria. Delays are governed by Section 8 below.

7.4 When the Service is deemed delivered as described in section 7.2 above, License Activation Date occurs and Regular License instead of Project License will apply. If the Implementation Project and the delivery of the Service are however delayed past the dates for final acceptance testing as specified in the Statement of Work due to circumstances not attributable to Supplier, Supplier shall be entitled to charge Regular License from the intended date for final acceptance testing (as specified in the time plan in the Statement of Work) and any remaining payment for the Implementation Project.

If the Implementation Project is not accepted by this date the Customer shall either be entitled to a price reduction of the Implementation Project equivalent to the applicable delay or be entitled to terminate the Agreement with immediate effect and to be re-funded any pre-paid fees for the Implementation Project.

8.3 Supplier shall however not be deemed in delay and section 8.2 above shall not apply if the delay is caused by circumstances attributable to Customer, such as, but not limited to, delays regarding Customer's third-party vendors, Customer's personnel, necessary access or approvals etc. In the event the delay is caused by Customer, Supplier shall be entitled to compensation for additional work according to Supplier's applicable hourly rates and any additional costs for Supplier.
